Our product catalogue is ever-evolving due to the extensive range of our offerings and our relentless pursuit for innovative solutions. While the products displayed here represent some of our most sought-after lines and models, we have much more to offer. For an exhaustive list and detailed information, we encourage you to reach out to your dedicated ABS representative via phone or email or visit our website at [www.absagencies.com](http://www.absagencies.com). We are also more than happy to provide PDF specification sheets for most of our products via email.

## ► **Breading Machines**

Made in Europe, we can offer you a whole range of batter-breading machines available to meet your capacity requirements.

## ► **Cheese Grater**

With 220V power, this unit will meet your expectations on reliability and performance from our premium, made in the USA, supplier.

## ► *Deli Slicers*

Our German made options have automatic units complete with conveyor belt and incredible flexibility to stack and shingle with precision.

## ► *Dicers / Slicers*

Many options available from our European partners to meet a wide range of product and capacity requirements. We can help with slicing, dicing, strips or shredding for your protein or vegetables production including frozen

## ► *Feed Grinders*

Explore our line of feed grinders to meet your large capacity grinding requirements including frozen product.

## ► *Food Cutters*

Enhance your food preparation process with our versatile and efficient food cutters, designed to cater to your specific needs and capacity requirements.

## ► *Frozen Block Flakers*

Discover our extensive selection of frozen block meat flakers, tailored to meet your unique requirements and ensure efficient meat processing.

## ► *Fryers*

Continuous fryers made entirely from stainless steel with a new system of paddles in the conveyor system.

## ► *Injectors*

Explore our food injector machines, crafted to enhance flavors and textures, with various models available to meet specific needs in food processing applications.

## ► *Kettles*

Discover our variety of kettle machines, designed for hot preparation of soups, sauces, and more, with high-quality construction, efficient mixing, and optional features for precise temperature control.

## ► *Meat Saws*

Introducing our meat saws, equipped with an advanced safety feature that senses the operator's proximity to prevent accidents, with a range of other models available to meet specific needs and ensure safe operation in various meat cutting applications.

## ► *Meatball Machines*

Various options to accommodate specific product and capacity requirements are available, including attachment to vacuum stuffers, to meet your budget and product criteria.

## ► *Mixer Grinders*

Find the perfect solution for your specific needs with our wide range of industrial mixers and grinders, ensuring efficient and precise blending and grinding operations of any scale.

## ► *Patty Forming Machines*

A diverse array of patty forming machines tailored to your production needs, ranging from tabletop models to high-capacity machines.

## ► *Portioning Machines*

From tabletop to high-capacity. The ability to attach to fillers or mincers, integrating into your production line

## ► *Sausage Stuffers (Hydraulic)*

Unveil sausage-stuffing perfection with our hydraulic stuffer range, meticulously designed to deliver unparalleled precision and efficiency for your unique operations.

## ► ***Sausage Stuffers (Vacuum)***

Experience the future of sausage stuffing with our vacuum-operated stuffer line, offering models from compact to large-capacity machines, guaranteeing precise filling for your specific use.

## ► ***Shredders***

High capacity, precise, continuous shredding of meat, vegetables and fruits, done safely and efficiently

## ► *Skewer Machines*

Experience high-efficiency skewer production with our fully automatic machines, offering up to 1500 pieces per hour and adjustable sizing

## ► *Smoke Houses*

High capacity, smoking, cooking, or ripening of meats, fish or cheese. Systems for thermic and smoke treatments.

## ► *Thermoformers*

Versatile, large capacity, high speed operation for your packaging needs. Various models to suit your budget and production requirements.
